Raju ki 10 Galtiyan

R Raju har naya retail trader hai. Shayad tum bhi. Har galti ka asli naam, kaise pehchano, aur fix. Jo galti tumne bhi ki hai, uska dabba tick karo.

1 Loss mein SL door khiskana

LOSS AVERSION

☐ maine bhi ki

KAISE PEHCHANO

Price SL ke paas aaye aur tum SL thoda aur door kar do, "bas thoda saans lene do".

FIX

SL entry se pehle tay karo aur broker mein lagao. Loss mein SL kabhi door nahi.

Source: Tversky & Kahneman (1992): loss ka dard barabar jeet ki khushi se lagbhag do guna (ek estimate; naye studies kam batate hain).

2 Profit jaldi book, loss hold

DISPOSITION EFFECT

☐ maine bhi ki

KAISE PEHCHANO

Journal mein average win chhota aur average loss bada. Profit mein darr, loss mein umeed.

FIX

Last 10 trades ka average win vs average loss nikalo. Exit entry se pehle likho.

Source: Odean (1998): log profit wale shares jaldi bechte hain, loss wale pakad kar rakhte hain.

3 Averaging down

LOSER MEIN ADD KARNA

☐ maine bhi ki

KAISE PEHCHANO

Position loss mein hai aur tum "average kam karne" ke liye aur kharid lete ho.

FIX

Rule likho: loss wali position mein kabhi add nahi. Add sirf profit wali mein, plan se.

4 Zyada trade, zyada kharcha

OVERCONFIDENCE · OVERTRADING

☐ maine bhi ki

KAISE PEHCHANO

Din ke trades ginti se bahar. Bina setup ke bhi click, "ek aur try".

FIX

Ek din ki max trade limit tay karo (jaise 3) aur use rules mein likho.

Source: Barber & Odean (2000), ek US study (1991-96): sabse zyada trade karne wale households ko 11.4% saalana mila, market ne 17.9% diya.

5 Sirf apne favour ke saboot

CONFIRMATION BIAS

☐ maine bhi ki

KAISE PEHCHANO

Bullish ho to har chart bullish dikhta hai. Ulta signal "noise" lagta hai.

FIX

Har trade se pehle ek reason likho jo trade ke KHILAAF ho.

Source: Daniel Kahneman, *Thinking, Fast and Slow* (2011).

Galti 6 se 10

6 Last 3 trades se system badalna

RECENCY BIAS

☐ maine bhi ki

KAISE PEHCHANO

3 loss ke baad perfect setup bhi skip, ya naya indicator dhoondna.

FIX

Agle 20 trades ka sample tay karo. Beech mein system mat badlo.

Source: Kahneman (2011); Mark Douglas, *Trading in the Zone* (2000).

7 "Mujhe pata tha!"

HINDSIGHT BIAS

☐ maine bhi ki

KAISE PEHCHANO

Chart ke baad sab obvious lagta hai, aur apni skill zyada lagti hai.

FIX

Trade se PEHLE plan likho. Baad mein plan se compare karo, yaad se nahi.

Source: Kahneman (2011).

8 "Bas mera paisa wapas aa jaaye"

LOSS MEIN RISK LENA · HOPE

☐ maine bhi ki

KAISE PEHCHANO

Break-even ka intezaar. Loss badhta hai par position band nahi hoti.

FIX

Har open loss par poocho: "Ye trade aaj naya hota to leta?" Nahi = band karo.

Source: Kahneman (2011); Hougaard (2022).

9 Bhaagti candle ke peeche bhaagna

FOMO

☐ maine bhi ki

KAISE PEHCHANO

Breakout nikal gaya, tum top par kood gaye. Late entry, bada SL.

FIX

Rule: candle bhaag gayi to chase nahi. Pullback ka wait, ya agla setup.

Source: Jared Tendler, *The Mental Game of Trading* (2021).

10 Market se badla

REVENGE TRADING

☐ maine bhi ki

KAISE PEHCHANO

Loss ke turant baad naya trade, aksar bade size mein, gusse mein.

FIX

Har loss ke baad 15 minute screen band. Daily max loss pe din khatam.

Source: Tendler (2021).
