Weekly Review

Hafte ke trades ko P&L se nahi, decisions se aanko. Har Sunday ye page bharo (ya copy banao), journal saath mein khol kar.

HAFTA	TOTAL TRADES	RULE FOLLOW KIYA	NET P&L (₹)
----------	----------	___ / ___ trades	----------

1 Is hafte ka sabse achha decision kaunsa tha?

Profit wala trade zaroori nahi. Wo pal jab tumne plan follow kiya (SL respect kiya, FOMO trade chhoda).

---

2 Is hafte ka sabse bura decision kaunsa tha?

Loss wala trade zaroori nahi. Kahan rule toda? Us waqt kya soch rahe the, kya feel kar rahe the?

---

3 A-game vs C-game: is hafte kaisa raha?

A-game = tumhara best trading (shaant, plan wala). C-game = tumhara worst (gussa, jaldi, bina plan).

MERA A-GAME IS HAFTE

MERA C-GAME IS HAFTE

C-game kis cheez se shuru hua? (trigger: loss, news, thakaan, boredom...)

---

4 Kaunsi galti is hafte dobara hui?

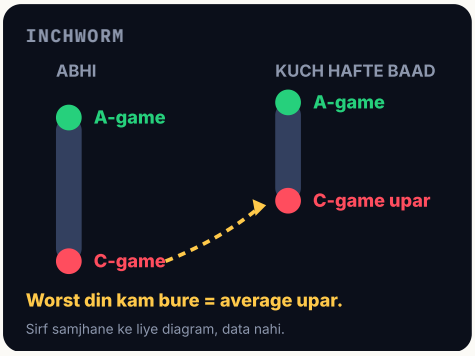

Journal ka "Galti" column dekho. Jo sabse zyada baar aayi, wahi likho.

Agle hafte sirf EK sudhaar

Ek hi. Chhota aur check hone layak. Example: "Loss ke baad 15 minute screen band."

C-game ko upar laao

Kyun ye review?
Jared Tendler (*The Mental Game of Trading*) ka "Inchworm" idea: tumhari trading ek range mein hoti hai, best (A-game) se worst (C-game) tak. Sabse tez sudhaar C-game ki galtiyan kam karne se aata hai, best din ko aur best banane se nahi.

Aur Annie Duke (*Thinking in Bets*): result se decision mat aanko. Achha decision bhi loss de sakta hai. Isliye sawaal decisions par hain, P&L par nahi.
